New York Stock Market

New York, February 19.—Reading was the only one of the stock market lead-ers to move to-day more than a frac-tion from last week's close. That stock was under pressure during the morn-ing and loss, a point but wad. ing and lost a point, but made it up in

There was no sign of an awakening from the comatose condition into which the market fell last week. Its utter stagnation is indicated by the fact that during one hour of to-day's trading less than 13,000 shares of stock changed hands, the lowest figures for an heur's business in months, Quotations were barely changed for the day at the close.

The pressure against Reading ap-parently was due to bear selling on the sica that the Supreme Court might reader its decision in the anthracite

case.

The copper stocks showed continued irmness. A few inactive stocks moved more widely than the leaders. American Shuff dropped five points, and Bethlehem Steel 1.3-8. St. Louis Southwestern. Central Leather preferred. Westinghouse. Mackay Companies and General Electric were the strongest, rising a point or more.

Improvement in freight movements on Western roads during the last week was reported. Gross carnings for the first half of Pehruary in many cases show considerable gains, chiefly on account of unusually large receipts of farm products.

Germany again borrowed money in

count of amstally large receipts of farm products.

Germany spain borrowed money in this market. New York banks received bids of 4.1-2 per cent, for one month loans, offers so much above the current quotations here as to attract some large investments. Bankers as withed the demand for money on Berlin to commercial activity and the requirements of the approaching settlement. Lingsgement of gold for shipment of South America continued. \$550.000 being withdrawn to-day for Argentina. The bond market was dull and steady. Total sales par value, \$1,891.000. United States bonds were unchanged on call.

Total sales, 168,300 shares of stock.

COTTON MARKETS.

New York, February 19 - While still more or less nervous and unsettled the cotion market showed a generally firmer tone to day with the trading much less active after the extreme excitement or last week, and with the close steady at a not gain of from 150 21 points. The market opened steady in an advance of 751 points in response to better cables than looked for and early advices from the indicating relatively firm interior markets. There was quite a good deal of cotton for saie on the initial advance, and prices reacted a few points during the carly trading under realizing by Sautuday's buyings for a turn and a renewal of bear pressure. Houses with foreign connection were good buyers, however, and the market soon begen to firm up on the demand from this source and moderate support from the old buil leaders. Continued reports of steady Southern spot markets contributed to the steadyer tone of the market, and while hostiness was quite enough to suggest continued lack of confidence in the permanency of the upward movement trading became a little increase active on a scale us After showing a not gain of about 15724 points, with July contracts selling at 1045, or about M polits above the low level of last Friday, the market met increased offerings, and subsequent.

We Have Frequently

Remarked before that more bank officias have made the Virginia Trust Company their Executor and Trustee than men of any other calling. The fact is significant, because they understand its safety.

Yesterday's mail brought two letters from Bank Presidents, one living in Virginia, the other in North

One proposes to make his wife and this Company his Executors and the Virginia Trust Company his Trustee. The other names this Company and his attorney Executors and the Virginia Trust Com-

Both of these men are at the head of great banks—they have made their banks what they are, and they know what they are about.
